

# Introducing the Accelerated Learning

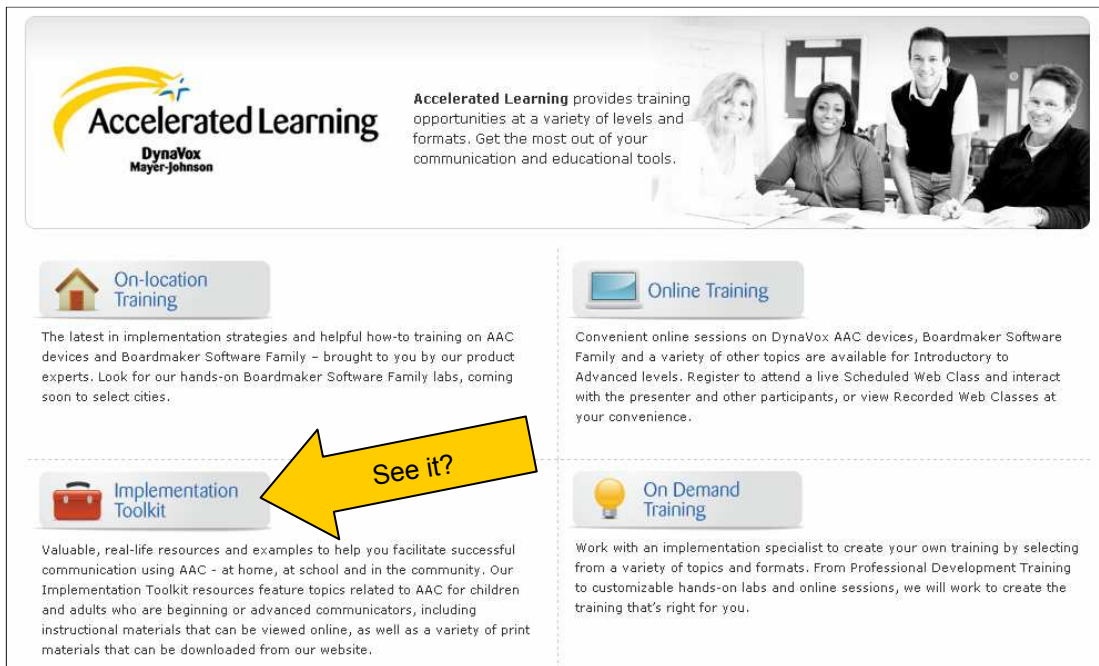

## Implementation Toolkit

Use the Implementation Toolkit to:

-  Increase your knowledge and skills regarding AAC practice
-  Impact the knowledge and skills of the families and staff with whom you work
-  Communicate important information among the AAC user's team

**How?** First, get online at [www.dynavoxtech.com](http://www.dynavoxtech.com)!

Then, select **Training** and **Implementation Toolkit**,

The screenshot shows the 'Accelerated Learning' website. At the top, there is a header with the logo and a photo of four people. Below the header are four main sections:

- On-location Training:** The latest in implementation strategies and helpful how-to training on AAC devices and Boardmaker Software Family – brought to you by our product experts. Look for our hands-on Boardmaker Software Family labs, coming soon to select cities.
- Online Training:** Convenient online sessions on DynaVox AAC devices, Boardmaker Software Family and a variety of other topics are available for Introductory to Advanced levels. Register to attend a live Scheduled Web Class and interact with the presenter and other participants, or view Recorded Web Classes at your convenience.
- Implementation Toolkit:** Valuable, real-life resources and examples to help you facilitate successful communication using AAC - at home, at school and in the community. Our Implementation Toolkit resources feature topics related to AAC for children and adults who are beginning or advanced communicators, including instructional materials that can be viewed online, as well as a variety of print materials that can be downloaded from our website.
- On Demand Training:** Work with an implementation specialist to create your own training by selecting from a variety of topics and formats. From Professional Development Training to customizable hands-on labs and online sessions, we will work to create the training that's right for you.

A yellow arrow points from the 'Implementation Toolkit' section towards the 'See it?' text.

**What's next?** You can either Search or use our Learning Paths.

**Search Toolkit** gives you access to 100's of resources organized by topic.. Start by selecting the Area of Interest and the Type of Resource for the most efficient return of resources.

### LEARNING PATHS

**Learning Paths** provide you access to a select ed set of the resources available on a specific topic.

## What is in the

Implementation  
Toolkit

I want...	Resource/Location
<ul style="list-style-type: none"> <li>• Help to implement use of the V, Vmax or M3 I just received.</li> </ul>	Opening the Box Learning Path
<ul style="list-style-type: none"> <li>• To share the set-up of the device (position, transportation, selection method)</li> </ul>	Selection Method resources—select “Selection Methods and Positioning” on the Search page
<ul style="list-style-type: none"> <li>• The AAC user to be able to repair conversational breakdowns</li> </ul>	Tools for AAC Users Learning Path or select “Strategic Skills” when searching
<ul style="list-style-type: none"> <li>• Information about why InterAACT uses visual scenes</li> </ul>	Search under “Introducing AAC”, “Learning & Selecting Vocabulary” and “Handouts” to find “Interacting with InterAACT—Visual Scenes”
<ul style="list-style-type: none"> <li>• To learn (or teach others) techniques that will expand communication and increase independence</li> </ul>	Communication Partner Techniques Learning Path or :search on “Communication Partner Skills”
<ul style="list-style-type: none"> <li>• The AAC user to take greater responsibility in caring for the device and to operate it more independently</li> </ul>	Basic Operational Skills Learning Path or search on “Operational Skills”
<ul style="list-style-type: none"> <li>• Current research to review and share</li> </ul>	On the search page, look at the alphabetical list for resources entitled “Articles-at-a-Glance”
<ul style="list-style-type: none"> <li>• To introduce AAC in specific activities</li> </ul>	Search under “Communication Partner Skills” and look for scripting resources
<ul style="list-style-type: none"> <li>• Information that informs assessment</li> </ul>	Search under Point in Process for “Assessing Skills”
