

# STRIX

Portable CCTV for far vision, reading and writing

At last, the solution for the visually impaired! Assistance with reading writing and far vision have now been uniquely combined in the STRIX.

The STRIX will facilitate a wide range of activities, enhancing the independence of the user.

The STRIX is a handheld, full color electronic magnifier with an integrated 7" TFT display and an auto focus camera. The STRIX will enable the user to carry out a host of everyday tasks: reading newspapers and books, consulting timetables at stations and airports, reading text on consumer products in shops, or participating actively in business meetings and presentations at work.

With an optional stand , the STRIX can replace large auto-focus video magnifiers.

# STRIX

Portable CCTV for far vision, reading and writing

## FAR VISION

The unique feature of the STRIX is the help it offers with far vision. Distant objects can be magnified and viewed easily, bringing countless advantages in many different situations. Be it at school, at work, or socially, STRIX users can actively participate in their environments from now on.

## READING

The STRIX magnifies 4-20 times. In addition to a full color mode, the STRIX has a black on white mode and a white on black mode.

## WRITING

With its built-in writing position, the STRIX can be tilted at an angle, facilitating the writing and signing of documents.

## STRIX:

**FIRST** with three integrated functions: Far Vision, Reading and Writing

**FIRST** portable auto-focus

**FIRST** all-in-one: STRIX combines portability with desktop home use
